WPM-191
Semi-Automatic Wire Stripping & Twisting Machine

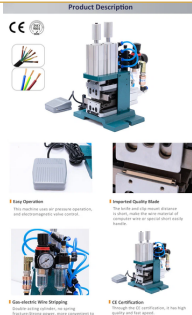

WPM-190
Semi-Automatic Wire Stripping & Twisting Machine

WPM-320
Flat Double-Layer Cable Cutting Stripping Twisting Machine

WPM-200
Semi-Automatic Pneumatic Electric Wire Stripping & Twisting Machine

WPM-4F+T
Automatic Multi-Core Wire Stripping & Twisting Machine

WPM-200T
Pneumatic Wire Stripping & Twisting Machine 3-45mm

WPM-180
Portable Wire Stripping and Twisting Machine

WPM-3F+T
Pneumatic Wire Stripping & Twisting Machine

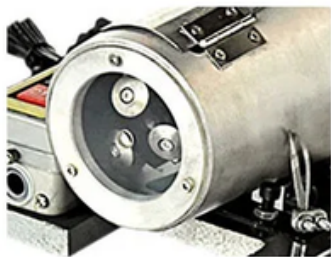

WPM-09T
Automatic Wire Cutting Stripping Twisting Machine

Semi-Automatic Wire Stripping & Twisting Machine
WPM-191

The WPM-191 Semi-Auto Wire Stripping Twisting Machine is engineered for exceptional efficiency and precision in wire processing. Suited for both small workshops and larger manufacturing units, this versatile machine seamlessly strips and twists wires across a variety of gauges from AWG22 to AWG14. It features a user-friendly interface with intuitively adjustable settings, ensuring consistently high-quality results. The robust construction guarantees exceptional durability and long-term reliability. Its compact design allows for easy integration into workshops of any size, while the simultaneous stripping and twisting functionality streamlines the wire preparation process and maximizes efficiency.

Specifications

Model	WPM-191
Wire Range	AWG22-AWG14
Wire Diameter	1-3mm
Stripping/Twisting Length	2-25mm
Speed	0.5-2s each time
Power	Electric
Weight	18kgs
Dimension	300*185*155mm
Operation Type	Semi-Auto

Aluminium Alloy Head
Aluminum alloy is not easy to rust, with strong toughness.

Semi-Automatic Wire Stripping & Twisting Machine WPM-190

The WPM-190 Semi-Auto Wire Stripping Twisting Machine is the ultimate solution for fast, accurate, and effortless wire preparation. This versatile machine seamlessly combines wire stripping and twisting functionalities, making it an indispensable tool for electricians and wire processing professionals. Its semi-automatic operation dramatically reduces manual labor while maintaining high levels of accuracy. Featuring adjustable stripping lengths and twisting capabilities, this machine accommodates a wide variety of wire sizes from 1.2mm to 3.0mm. The solid construction guarantees longevity and consistent operation, making it a valuable long-term investment.

Specifications

Model	WPM-190
Operation Type	Semi-Automatic
Applicable Wire Range	1.2-3.0mm
Stripping Length	2-20mm
Twisting Length	2-20mm
Length Accuracy	+/- (0.002*L) mm
Dimensions (LxWxH)	210x125x155mm

Flat Double-Layer Cable Cutting Stripping Twisting Machine WPM-320

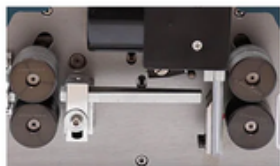

The WPM-320 Flat Double-Layer Cable Cutting Stripping Twisting Machine is a versatile solution for processing flat double-layer cables. It combines wire cutting, double-end stripping and twisting, and middle stripping functions in one unit. The machine handles wire ranges of 2*(0.3-2.0mm²) with twisting capability. Featuring a silent hybrid stepper motor with 0.01mm stripping accuracy, it achieves processing capacity of 500-1500 pieces per hour. Equipped with imported tungsten steel blades and automatic entry/exit, timing start, and jog adjustment features. The customizable intermediate strip function adds flexibility for complex cable processing requirements.

Specifications

Model Number	WPM-320
Function	Wire cutting, double-end stripping and twisting, middle stripping
Wire Range	2*(0.3-2.0mm ²)+twisting
Cutting Length	0.1mm-99999.9mm
Stripping Length (Sheathed)	Head: 0.1-250mm, Tail: 0.1-70mm
Stripping Length (Inner Core)	Head: 0.1-30mm, Tail: 0.1-30mm
Stripping Accuracy	0.01mm (Silent hybrid stepper motor)
Capacity	500-1500/hour
Blade Material	Imported tungsten steel / high-speed steel
Power	AC110V/220V 50/60HZ
Body Size	565*385*370mm
Body Weight	43kg

LCD Screen with Programable Setting
Different modes and fast production setup for different applications.

4-Wheel Driving
Ensure the smooth cutting and stripping process.

High Speed and Steady Blades
Tungsten steel material is selected.

Standard Parts Prepared
Protective cover, optional guide tubes and practical toolings.

Semi-Automatic Pneumatic Electric Wire Stripping & Twisting Machine WPM-200

The WPM-200 Semi-Auto Pneumatic Electric Wire Strip Twister is an advanced tool engineered for quick and highly efficient wire twisting applications. Perfectly suited for professional electricians, this innovative device seamlessly combines pneumatic and electric functionality, allowing effortless stripping and twisting of wires with unparalleled precision. The user-friendly design ensures consistent, high-quality results with every operation, dramatically reducing labor time and improving overall productivity. Built with robust durability, the WPM-200 handles a wide variety of wire sizes from AWG14 to AWG22, making it an essential addition to any professional toolkit for AC/DC power lines and multi-core wires.

Specifications

Model	WPM-200
Operation Type	Semi-Automatic, Pneumatic & Electric
Available Wire Size	AWG14-22
Wire Size	1-4mm
Stripping Length	2-20mm
Power	120W
Measurement	300x200x160mm
Net Weight	15Kg
Applicable Wire Types	AC/DC Power Line, Multi-Core Wires

Automatic Multi-Core Wire Stripping & Twisting Machine
WPM-4F+T

The WPM-4F+T Multi-Core Wire Strip Twisting Machine is engineered for professional wire processing applications. This advanced machine is expertly designed to efficiently strip and twist multiple wire cores simultaneously, dramatically increasing productivity and ensuring precision. It boasts a user-friendly interface, easily adjustable settings, and robust construction, offering unparalleled performance ideal for electricians and manufacturers. Perfectly suited for computer peripheral cables, telephone cables, audio cables, microphone cables, and similar wire types. The compact and tight structure ensures easy integration into various workspace layouts, while the multiple synchronous stripping and twisting capability significantly boosts work efficiency.

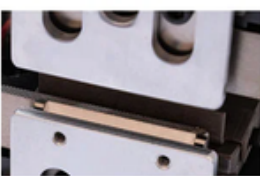

Specifications

Model Number	WPM-4F+T
Voltage	220V 50Hz / 110V 60Hz
Power	90W
Suitable Wire Size	0.1-0.75mm2 (AWG18#-32#)
Ability to Strip/Twist	1-10 pcs/times
Stripping/Twisting Length	3-30mm
Stripping/Twisting Speed	120-130 times/min
Air Pressure	5-7KG
Weight	18KG
Dimension	320*300*400mm

Product Description

Easy Operation
This machine uses air pressure operation, and electromagnetic valve control.

Imported Quality Blade
The knife and clip mount distance is short, make the wire material of computer wire or special short easily handle.

Gas-electric Wire Stripping
Double-acting cylinder, no spring fracture; Strong power, more convenient to use

CE Certification
Through the CE certification, it has high quality and fast speed.

**Pneumatic Wire Stripping & Twisting Machine 3-45mm
WPM-200T**

The WPM-200T Pneumatic Wire Stripping and Twisting Machine is a pneumatic-powered solution designed to significantly enhance wire processing workflow. This efficient machine excels at processing power lines, electronic wires, and multicore wires with remarkable ease and speed. It features electric footswitch control that significantly reduces worker labor intensity, allowing hands-free operation. The clip wire module system ensures secure gripping for stable and precise processing. The blade is driven by a cylinder bridge for powerful and precise stripping, while a sophisticated rack and pinion gear system driven by a cylinder ensures efficient and secure wire twisting. The two-step process optimizes results for both stripping and twisting stages.

Specifications

Model	WPM-200T
Air Source	6KG
Strip and Twist Length	3-45mm
Power Supply	220V (50HZ)
Power	30W
Suitable Wire Types	Power Line, Electronic Wire, Multicore Wire
Length Requirement	>5mm
Weight	12KG
Machine Size	320*180*170mm

Portable Wire Stripping and Twisting Machine WPM-180

The WPM-180 Portable Wire Stripping and Twisting Machine is a compact and powerful solution designed for on-the-go wire preparation. This portable machine offers the combined functionality of a full-sized machine in a remarkably small and lightweight package of only 6.0Kg. Perfect for field work, limited workspaces, or any application requiring both stripping and twisting in a portable format. It handles common wire sizes from 1-4mm (AWG14-AWG22) with adjustable stripping and twisting lengths from 2-20mm. The simple and fast operation makes wire stripping accessible to all skill levels, with straightforward instructions: cut wires, choose blade mold, set stripping length, power on, insert and quickly remove the wire.

Specifications

Model Number	WPM-180
Available Wire Size	1-4mm (AWG14-AWG22)
Stripping(Twisting) Length	2-20mm
Power Supply	220V/50Hz, 110V/60Hz
Power Rating	120W
Measurement	210x125x155mm
Net Weight	6.0Kg

Pneumatic Wire Stripping & Twisting Machine 350mm
WPM-3F+T

The WPM-3F+T Pneumatic Wire Stripping and Twisting Machine is a precision-engineered solution designed to revolutionize wire processing in industrial applications. Powered by cutting-edge pneumatic technology, this machine ensures highly efficient stripping and twisting of wires. With its robust construction and user-friendly interface, the WPM-3F+T significantly simplifies complex wiring tasks, enhances productivity, and guarantees consistently superior results. The versatile machine handles a broad spectrum of cables, from delicate thin computer multi-core cables to robust thick electrical wires and flat cables. The smart and compact design makes it lightweight and easy to integrate into various workspaces. Features high precision operation with extremely low maintenance requirements.

Specifications

Model Number	WPM-3F+T
External Size	350*230*350mm
Weight	15kg
Power Supply	220V/50HZ, 110V/60HZ
Air Pressure	0.4-0.75MP
Twisting Speed	120-30pcs/min
Stripping Length	3-25mm
Applicable Cables	Computer multi-core, electrical wires, flat cables

Easy Operation

This machine uses air pressure operation, and electromagnetic valve control.

Imported Quality Blade

The knife and clip mount distance is short, make the wire material of computer wire or special short easily handle.

Gas-electric wire stripping

Double-acting cylinder, no spring fracture; Strong power, more convenient to use

CE Certification

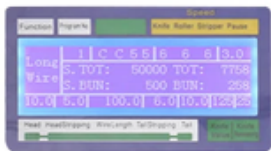

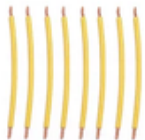

Through the CE certification, it has high quality and fast speed.

Automatic Wire Cutting Stripping Twisting Machine
WPM-09T

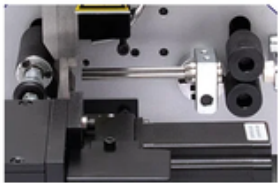

The WPM-09T Automatic Wire Cutting Stripping Twisting Machine is a fully computerized solution designed to revolutionize wire processing operations. This comprehensive machine integrates cutting, stripping, and twisting into a single automated process. Built with advanced automation technology from Japan and Taiwan, it utilizes numerical control for precise and repeatable operation. Achieves impressive production speeds of 4000-10000 pieces per hour with exceptional cutting tolerance of $\pm(0.002 \times L)$. The versatile machine handles wire cross-sections from 0.1-2.5mm² and is compatible with PVC, Teflon, silica gel, and glass fiber wires. Features an English/Chinese LCD display, powerful 4-drive system, hard tungsten steel blades, and up to 16 middle stripping sections per wire.

Specifications

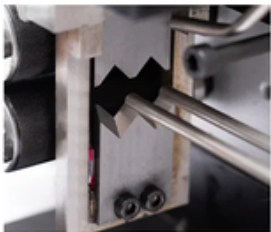

Model Number	WPM-09T
Wire Cross-Section	0.1-2.5mm ²
Conduit Diameter	6mm
Cutting Length	1-100000mm
Cutting Tolerance	$\pm(0.002 \times L)$ mm
Twisting Length (Head)	0-35mm
Twisting Length (Tail)	0-20mm
Speed	4000-10000pcs/h
Middle Stripping Sections	Max 16
Display	English/Chinese LCD
Drive Mode	4 Drives
Blade Material	Hard Tungsten Steel
Power	450W
Power Supply	220V/50Hz, 110V/60Hz
Dimension	390x350x255mm
Weight	42kg

LCD Screen with Programable Setting
Different modes and fast production setup for different applications.

4-Wheel Driving
Ensure the smooth cutting and stripping process.

High Speed and Steady Blades
Tungsten steel material is selected.

Standard Parts Prepared
Protective cover, optional guide tubes and practical toolings.
